

MY THANKS TO GOD AND

FRIENDS

I would like to take this opportunity to thank all of you who have been supporting and praying for us. This year promises to be a difficult year for us, but I can do all things through Christ who strengthens me. We know we have Christian friends upon whom we can depend, if necessary. There have been some disappointments, such as the upcoming loss of Dr. Bob and Becka. They have become very dear friends and will be missed. God has given us the opportunity to grow in his grace during the past year, and we thank you who have assisted in that growth! I don't believe we could handle the upcoming events as well if we had not had this opportunity to grow in grace first. Praise God for his love and support. I am about to consult with the surgeon regarding the upcoming operation. The surgeon is highly recommended, and of course the Great Physician will keep an eye on the operation. I can feel the assurance of the Holy Spirit as I progress into this event. God bless all of you and we wish you a glorious year in the Lord.
